## ISSUES

On energy and climate policy

We should be looking at all energy options and ensure that independent cost studies are completed prior to the implementation of any recommendations made by the Climate Action Council.

On the largest impediment to growth in our region

Excessive regulations, mandates and taxes.

On bridging the digital divide

Reduce costs (regulations, fees, etc.) associated with necessary infrastructure buildout.

On developing the next generation of workers

Provide support in the following areas: middle- skill development; community college/business partnerships; apprenticeship programs; childcare

On why employers should support him

I will continue, as demonstrated by my record, to work to advance an atmosphere in NYS conducive to private sector growth.
